Security Specialist

To Do

+ Add a card

Doing

Do research in trailhead to double check work.

Work on additional trailheads in apex development.

+ Add another card

Done

Create a Working ERD with the relationship types assigned to each object

Include different fields required for the objects, and start thinking about the security issues related to the application.

Research Apex for Monday

Create objects within Salesforce and add their fields with correct data types

Populate the org with sample data

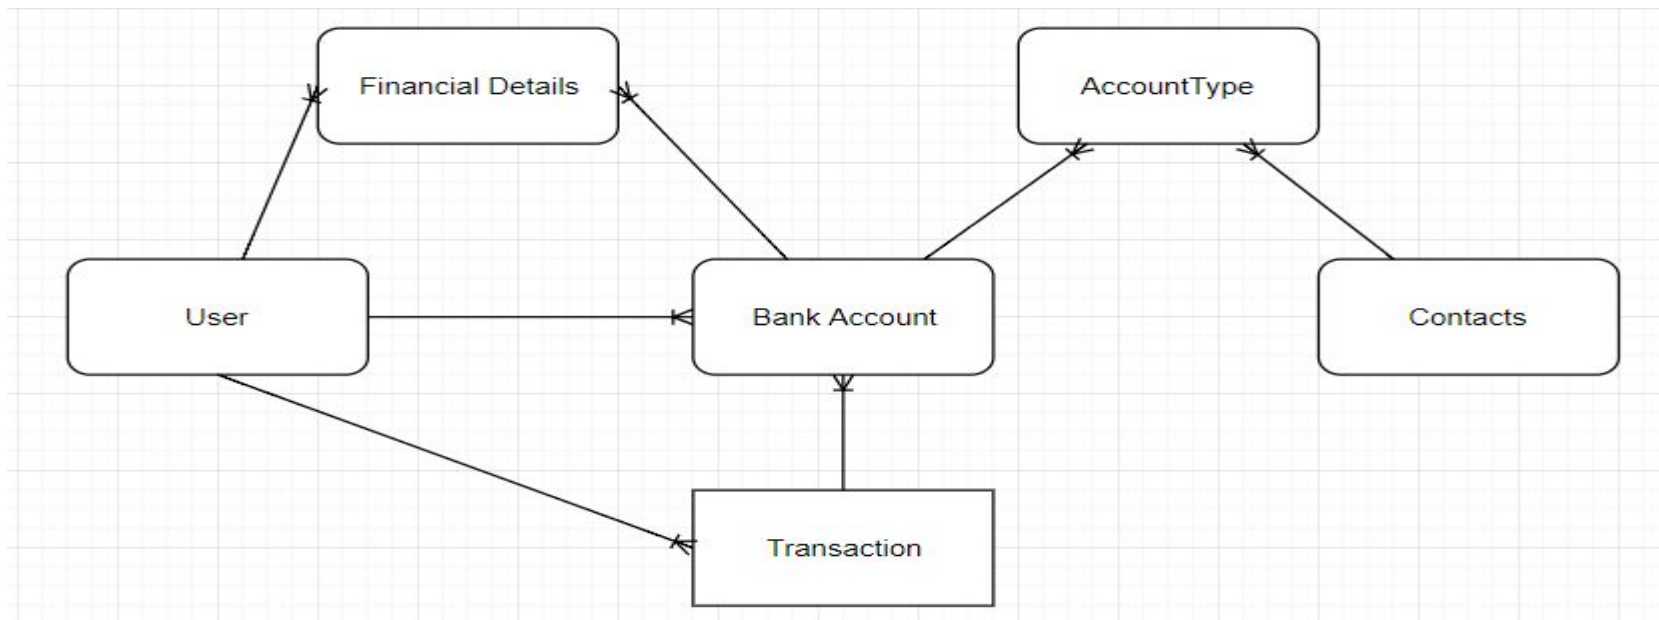

Complete functions 2, 3, 4, and 5

Complete functions 6,7, and 8

+ Add another card

Entity Relationship Diagram

Security

- Two Factor Authentication
 - Using salesforce Authenticator
- Profile restrictions
- Passwords Expiration
